Working Paper 2020-XX

[VERY PRELIMINARY DO NOT CITE]

October 2020

To enhance the transparency of the work of the Congressional Budget Office and to encourage external review of that work, CBO's working paper series includes papers that provide technical descriptions of official CBO analyses as well as papers that represent independent research by CBO analysts. Papers in this series are available at <http://go.usa.gov/ULE>.

Abstract

This paper ...

1 Introduction

This paper serves two major purposes. First, it documents the effects of various financing methods for funding a major increase in government expenditures. Second, it details and documents a substantive revision to CBO's overlapping generations model.

1.1 Literature Review

Cite the following: [Auerbach and Kotlikoff \(1987\)](#), [Nishiyama and Smetters \(2007a\)](#), [Nishiyama and Smetters \(2014\)](#), [Nishiyama and Reichling \(2015\)](#), [Nelson et al. \(2019\)](#).

2 The Overlapping Generations Model

This section details CBO's revised overlapping generations model.

2.1 Firms' Problem

2.2 Households' Problem

2.3 Government

2.4 Calibration

2.5 Solution Method

3 Results from Financing Options

CBO paper examines three financing mechanisms:

- Tax on labor income only
- Tax on combined labor and capital income
- Consumption tax

For this paper do we want to consider other mechanisms as well?

- Lump-sum tax
- Other?

4 Conclusion
